**Aroideana** is an illustrated publication devoted to information about the family Araceae and published by the International Aroid Society, Inc. No material may be reproduced by any means without written permission from the editor. Manuscripts, corrected proofs, and all editorial correspondence should be sent to **The Editor** - [aroidiana.editors@gmail.com](mailto:aroidiana.editors@gmail.com). All other correspondence is to be sent to the IAS **Secretary** - [mason@masonrhodes.com](mailto:mason@masonrhodes.com)

### Publication Ethics and Malpractice

Our Publication Ethics and Malpractice statement is available online at <http://www.aroid.org/aroidiana/ethics.php>

### Manuscripts

Papers must be typed on standard A4 paper, be double spaced throughout, and for hard copy be on consecutively numbered pages, with 2.5 cm (1") margins on all sides. Ideally all manuscripts should be submitted to the editor in electronic format as an e-mail attachment in MS Word or compatible. Authors should follow recommendations of the Council of Biology Editors Style Manual. Measurements are to be in metric units.

### Sequences of Sections

Follow this order: title, author name and address, abstract, introduction, materials and methods, results, discussion, acknowledgments, and literature cited. Captions must accompany all tables and figures. Abstracts should summarize the character and scope of the paper in 250 words or less, followed by no more than eight key words. Literature cited must be referenced in the text and listed alphabetically by author.

### Illustrations

Line drawings and tables must be in black, high resolution ink, clearly labeled, and consecutively numbered. Photos must be completely labeled and show desired cropping if any. Figures will be published either one column (six cm) or two columns (12.6 cm) wide. Full page illustrations will be no more than 12.6 cm x 20 cm. Original art will be returned to the author.

### IMPORTANT NOTE

When submitting material to IAS publications, please realize that the resolution of the photos embedded in Word documents is often not suitable for publishing as individual figures. Though they may look okay in the document, the individual elements can be just thumbnail size or adhered together into a small number of plates.

As of now, we can only accept separate high resolution photos in addition to the Word document, in JPEG or TIFF format. Made up plates in PDF format with high resolution images embedded are acceptable. Many thanks for your help in this matter and thank you for supporting Aroideana.

### Processing Manuscripts

Upon receipt, manuscripts are acknowledged and sent for critical review. Accepted manuscripts are sent to authors for revision in consideration of reviewers' comments and returned to the editor for typesetting. Page proofs are sent to the author for proofreading, with any changes other than typographical errors being charged to the author at cost at the editor's discretion.

### Voucher Materials

Descriptions of new species require deposit of type materials in a recognized herbarium.
